

Dear Surprise Valley Homeowner,

Surprise Valley's Pressurized Irrigation System provides non-potable water for irrigation during the irrigation season, which runs through mid March through Mid October of each year. The system provides irrigation water for use by Surprise Valley homeowners every other day for two hours. Irrigation will take place at night and early morning to minimize evaporation and increase the efficiency of water application.

To maintain pressure for all homeowners, everybody must water during their assigned time, and no other. Each homeowner is assigned to water either on "A" or "B" days. "A" and "B" days alternate, beginning from the first irrigation day. If you are assigned "A" you will begin on an odd day number in May. If you are assigned "B" you will begin on an even number day in May. Keep in mind this will change in June as there are two odd days in a row: May 31st then June 1st. Thus, "A" will become even days and "B" odd days.

Additionally, each homeowner is assigned a two-hour slot on their day. These slots run between 2 am and 10 am. Please set your irrigation clocks to run every other day during your time slot.

The irrigation assignment does not change from year to year. Continue to use the same time you have in the past. The irrigation will be posted on our website for future use. [www.surprisevalleyhoa.com](http://www.surprisevalleyhoa.com)

If you have any questions, please call the neighborhood manager at 208-368-0058 or email at [manager@surprisevalleyhoa.com](mailto:manager@surprisevalleyhoa.com).

Thank you for your cooperation.  
Surprise Valley Homeowners Association, Inc.
