

Residents,

Just a reminder concerning the irrigation shut off date and times. Homeowner system blowouts will be Friday October 26th through Sunday, October 28, 2018. Please see the information below with direction on how to blowout your system.

Surprise Valley's Pressurized Irrigation System will shut down on Tuesday, October 23, 2018. Please turn your sprinkler system timer to the OFF position on Tuesday, October 23th. This will allow enough pressure for Hopkins to blow out all of the common area sprinkler lines.

In order to maintain the pressure in the lines during blowouts, we are asking for your help in the process.

- Please turn OFF your sprinkler clock by Tuesday, October 23, 2018. Problems occur when homeowner clocks continue to run their cycle during the blowouts. This greatly reduces the available pressure.
- Homeowner blowout dates are Friday, October 26, 2018 - Sunday, October 28, 2018, between the hours of 10AM and 5PM.
- Please use the schedule below for your time to blow out your sprinklers. The schedule uses the last digit of your house address. Each house number has two assigned times, you may use either one.
- At your assigned time, manually run your sprinklers through all zones. Your sprinkler lines will be clear when there is just a very fine mist coming out of the sprinkler heads at each station. Remember to shut off your irrigation valve in the green box in your back yard after you are done blowing out your sprinklers. If you hire someone to blow out your sprinkler system, please be sure they do the blow out during your scheduled time.
- Common areas will be blown out Wednesday, October 24th, 2018 and Thursday, October 25th, 2018. Please do not

blow out your sprinklers on these days.

- If you are out of town that weekend, please arrange with a neighbor to blow out your sprinklers for you.

Thank you for your cooperation!

Sincerely,

John
