

Surprise Valley Traffic Issues

Attention Surprise Valley Residents,

Recently, there have been several instances of poor driving along Surprise Way. Speeding, tailgating, passing on yellow line, ignoring school bus and cross walks, and property damage. Additionally, our Landscaping crew has had close calls with drivers not slowing down and giving them room to work. Several residents have called the office to express their concerns.

SVHOA board member, Steve King has provided two resources for residents to access and communicate directly with agencies in charge of the roads and traffic. Thank you Steve.

The links are easy to use and effective.

Another suggestion is to request a traffic study from ACHD (Ada County Highway District).

Thank you for your help.

SV Board of Directors
